ROAD & RAIL SERVICES AWARDED HONDA PLANT PROCESSOR OF THE YEAR

LOUISVILLE, KY — Road & Rail Services, Inc., a Louisville, Kentucky-based leading provider of rail related services in North America, was recently awarded the American Honda Motor Co., Inc. 2016 Plant Processor of the Year Performance Excellence Award. Honda operates 19 major manufacturing facilities in North America producing a wide range of Honda and Acura automobiles, automobile engines and transmissions, Honda all-terrain vehicles, power equipment products and more.

The award, which recognizes Road & Rail Services' outstanding quality, process and service, was presented to Road & Rail Services on November 15, 2016 in Marysville, Ohio. Receiving the award from Road & Rail Services was Robert Sadler, Vice President of Automotive Operations. Earning this prestigious award is a vote of confidence in Road & Rail Services' people, performance and long term relationship that exists between American Honda and Road & Rail Services.

Established in 1987, Road & Rail Services is a recognized industry leader and a top-tier provider of rail related services to railroads, to rail shippers, and to railcar owners. With a reputation for excellence, the Company provides service solutions with competencies in train operations (railcar switching and shortline operations), in maintenance operations (rolling stock, infrastructure, and track assets), and product handling. Road & Rail Services has operations in 18 states and has a significant impact on the North American rail network, as recognized by numerous industry awards. The Company enhances operating velocity and asset condition within the automotive, aggregate, coal / utility, intermodal, paper, and steel / metals industries.
