## **ROAD & RAIL SERVICES AWARDED TDSI TERMINAL EXCELLENCE AWARD**

LOUISVILLE, KY — Road & Rail Services, Inc., a Louisville, Kentucky-based leading provider of rail related services in North America, was recently awarded the Terminal Excellence Award for the month of September 2016 by CSX's subsidiary, TDSI. TDSI offers additional vehicle-handling services through a network of automobile-distribution facilities, storage locations and facilities providing service to Eastern, Gulf and Southeastern ports.

This award was based on Road & Rail Services' performance at their Talladega, Alabama Automotive Facility, which was evaluated and selected by TDSI's Regional Operations Managers. This award is given to the automotive processing supplier who achieves: a high level of service performance, the least amount of overall damages, a high level of safety with minimal injuries and a superior audit score performance. In addition to receiving this honor in September, Road & Rail Services earned this award in Talladega in May 2016. Dennis Manns, Chief Commercial Officer, says, "The Road & Rail Services Talladega Operations Team continues to exhibit leading industry performance and provide excellent service. It is an honor to be recognized by TDSI as the highest performing terminal for the second time this year."

Established in 1987, Road & Rail Services is a recognized industry leader and a top-tier provider of rail related services to railroads, to rail shippers, and to railcar owners. With a reputation for excellence, Road & Rail Services provides service solutions with competencies in train operations (railcar switching and shortline operations), in maintenance operations (rolling stock, infrastructure, and track assets), and product handling (in areas such as automotive origin plant operations and destination terminal operations, intermodal, and bulk commodities). Road & Rail Services has operations in 18 states and has a significant impact on the North American rail network, as recognized by numerous industry awards. Road & Rail Services enhances operating velocity and asset condition within the automotive, aggregate, coal / utility, intermodal, paper, and steel / metals industries.
